

DM 215 E

TECHNICAL DATA

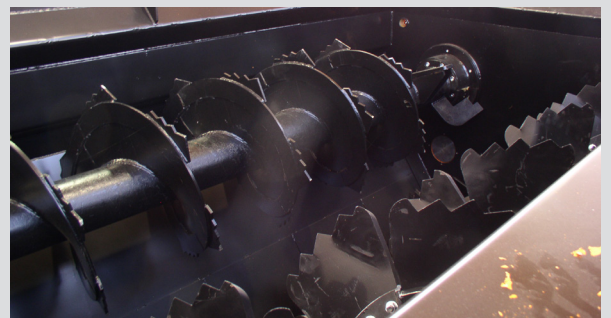

| | |
|-------------------------|-------------------------|
| Weight | 17.500 kg |
| Length | 7.710 mm |
| Width | 2.500 mm |
| Height | 2.710 mm |
| Infeed width (minimal) | 4.000 mm |
| Infeed height (minimal) | 2.710 mm |
| Main drive | 160 kW |
| Auxiliary drive | 1,5 kW (hydraulic unit) |
| Mixing chamber | |
| Length | 3.700 mm |
| Width | 2.050 mm |
| Volume | 15 m ³ |

The technical data are approximate and depends on the machine equipment (subject to change without notice).

Applications

The horizontal mixer DM 215 E can be used for mixing biowaste, green waste and/or composts screen oversize with digestate and/or additives in composting plants, mechanical-biological treatment plants or in biogas plants.

All advantages at a glance

- Solid housing and powerful drive
- Homogenizes the heaviest feed materials
- Three robust mixing screws, interchangeable mixing paddles
- Continuous or batch operation possible
- Large adjustable outlet
